

## **GR Club & Open Track Covid-19 Update:**

With all of the social impacts being felt from the Covid-19 situation, we're understandably having questions regarding our upcoming October 10<sup>th</sup> track day event. Our plan for the event is to proceed as planned, with a few modifications to the administration of the event for reasonable accommodation of the social-distancing guidelines advised by the CDC. Keeping in mind that our events are outdoor individual sporting events, we do not believe we have the same level of risk that some other team or indoor sporting events may have. The guidelines below are our CURRENT plan based upon the CURRENT situation with regard to the Covid-19 guidelines, National, State and Local. Recent State and local Adams County guidelines will allow us to better handle track events and having the Clubhouse open for food and refreshments. Adams County Nebraska moved to Level 4 from Level on 3 on 9/14/2020.

### **REGISTRATION:**

We will be accepting ONLINE pre-registration only, NO on-site registration at the track.

### **EVENT CHECK-IN:**

We will have NO LINE at check-in, we email all registered drivers a copy of the COVID19/Track insurance waiver which we request that you PRINT and SIGN, and then bring with you to the track. Your crew and or any guests also need a waiver signed and turned in at arrival. Event registration will consist of you giving your signed copy of the registration waiver form to our staff, we'll check you off the list and take payments per your submitted registration option, and you're done.

## **DRIVER'S MEETING:**

We will have a group driver's meeting prior to going GREEN for the day. We will be emailing all registered drivers the current COVID-19 guidelines, which we request you READ in full, UNDERSTAND, and contact us with questions if there is anything you don't understand. If there is any additional information that needs to be conveyed, we will inform everyone in the driver meeting.

## **GROUP GATHERINGS:**

The paddock is large and spread out, please set up your pit area where you can maintain distance from others, and when gathering in groups please make sure the group size is under 25. We're all adults, and can make what we feel are the best decisions for our own health and safety, while maintaining our freedom to engage in the sport we love.

## **PERSONAL BEHAVIOR:**

We kindly request if you are feeling any symptoms consistent with a viral respiratory infection (coughing, sneezing, shortness of breath, fever, chills, aches, etc.) PLEASE DO NOT come to the event. If you have had contact with a known carrier of the Covid-19 virus, and are within 14 days of this contact and have not tested negative for the virus yourself, please also DO NOT come to the event. At the event itself, please practice prudent social distancing, avoid skin-to-skin contact with anyone, if you feel a cough coming on please distance yourself from others and cough into your arm and not your hands, etc. Please wash your hands regularly. The MPH staff will ensure that the common restroom and shower facilities are cleaned and disinfected regularly while you are there.

## **OTHER FACTORS:**

Obviously the national and state-level response to this COVID19 situation is fluid, if things do change in a way that requires us to modify the plan, we'll certainly let everyone know, but for now we're a GO! Adams County moved to Level 4 September 14<sup>th</sup>. Our city is open for business and we're very pleased you're visiting us.

Thank you all for your support of Motorsport Park Hastings!
