

### **WKA Karting Track days Covid-19 Update:**

With all of the social impacts being felt from the Covid-19 situation, we're understandably getting questions regarding our upcoming **October 11th 2020** MPH WKA Karting track days event. Our plan for all remaining events is to proceed as planned, with a few modifications to the administration of the event for reasonable accommodation of the social-distancing guidelines advised by the CDC. Keeping in mind that our events are outdoor individual sporting events, we do not have the same level of risk that some other team or indoor sporting events may have. The guidelines below are our CURRENT plan based upon the CURRENT situation with regard to the Covid-19 guidelines, and Adams County DHM in place if we need to revise the plan later, we will. Current 9/14/2020 Level 4 State and local Nebraska Guidelines allow our events to be operated and competition is scheduled.

#### **REGISTRATION:**

We will "NOT" be accepting registration at the track for this event. You must register online and answer the COVID-19 questions to participate.

#### **Afternoon CHECK-IN:**

We will have NO LINE at registration please be patient and check in with social distancing in mind while you're at MPH. You'll sign the WKA Waiver sheet, pay and receive your WKA wristband. Cash, checks and Credit cards (+ 4% on CC) accepted.

## **DRIVER'S MEETING:**

Staff will post all drivers on any changes or how the on-track event will proceed for the day prior to on track activities. Socially distancing driver meeting.

## **GROUP GATHERINGS:**

The paddock is large and spread out, please set up your pit area where you can maintain distance from others, and when gathering in groups please make sure the group size is under 25 and this should be no problems at this venue. We're all adults, and can make what we feel are the best decisions for our own health and safety, while maintaining our freedom to engage in the sport we love.

## **PERSONAL BEHAVIOR:**

We kindly request if you are feeling any symptoms consistent with a viral respiratory infection (coughing, sneezing, shortness of breath, fever, chills, aches, etc.) PLEASE DO NOT come to the event. If you have had contact with a known carrier of the Covid-19 virus, and are within 14 days of this contact and have not tested negative for the virus yourself, please also DO NOT come to the event. At the event itself, please practice prudent social distancing, avoid skin-to-skin contact with anyone, if you feel a cough coming on please distance yourself from others and cough into your arm and not your hands, etc. Please wash your hands regularly. The MPH staff will ensure that the common restroom and shower facilities are cleaned and disinfected regularly while you are there.

## **OTHER FACTORS:**

Regardless of the other aspects of this, we STILL need to have lots of driver's confirmed for the event in order to hold it.

Obviously the national and state-level response to this situation is fluid, if things do change in a way that requires us to modify the plan, we'll certainly let everyone know, but for now we're a GO for all remaining events in 2020!

Thank you all for your support of Motorsport Park Hastings!
